

THE DIGITAL HUB INITIATIVE. TWELVE HUBS. ONE DIGITAL NETWORK.

WE CONNECT TO INNOVATE.

Twelve Digital Hubs located throughout Germany provide a solid network that facilitates the exchange of technological and economic expertise, programs and ideas. Each Digital Hub allows start-ups, companies and research institutions to come together to find common solutions to the challenges and prospects of digitisation. Accelerators and incubators develop new solutions for industry-relevant fields in special innovation programs. These solutions range from artificial intelligence to mobility and smart infrastructure.
