Europe and External Economic Policy

The German Advisory Group with the Ukrainian Government
The German Advisory Group

The primary task of the German Advisory Group with the Ukrainian Government is to provide continuous support and guidance to economic reform processes in Ukraine. By improving its economic policy framework and intensifying its integration within the global economy, Ukraine is laying a solid basis for sustainable economic development. The German Advisory Group has been analysing current problems affecting economic policy and providing recommendations for action to high-level decision-makers within the Ukrainian Government since 1994.

The advisory group’s work also involves dialogue with other international organisations such as the International Monetary Fund and the World Bank.

In addition, the advisory group uses its collective expertise and detailed contextual knowledge of the economic situation in Ukraine to provide support to German institutions in the field of government, public administration and business.

Financing

The Federal Ministry for Economic Affairs and Energy (BMWi) finances the German Advisory Group within the framework of the German Government’s TRANSFORM follow-up programme.

Local partners

For many years now, the German Advisory Group has engaged in close co-operation with local German and Ukrainian institutions. Our main partners include:

**Institute for Economic Research and Policy Consulting (IER)**
The Institute for Economic Research and Policy Consulting – which was established jointly by the Ukrainian Government and the German Advisory Group – is one of the leading economic policy think tanks in Ukraine today. The institute’s main task is to provide independent advice to decision-makers both inside and outside of government.
